

Wall-Mounted Home Energy Storage Battery System

- High density and 6000 cycles.
- Compatible with most of the available hybrid inverters.
- Superior safety: the safest LiFePO₄ battery, no fire and no explosions.
- Easy installation, maintenance free, easy replacement.
- Build-in BMS, multifunctional security protection.
- Acceptable customization.

Popular Model

51.2V-200AH

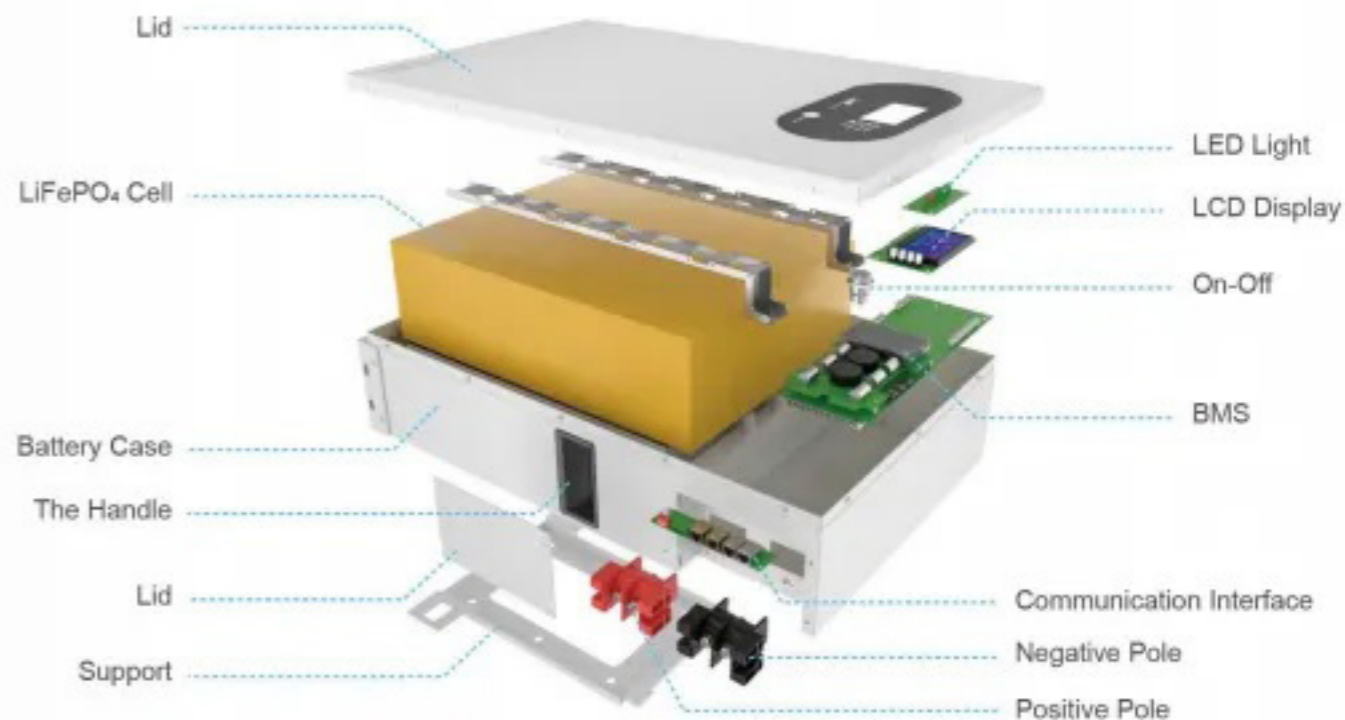

- ▶ Model: LFP51.2-200
- ▶ Nominal Voltage: 51.2V
- ▶ Rated Capacity: 200Ah/10240Wh
- ▶ Communication Interface: CAN/RS485/RS232
- ▶ Operating Voltage Range: 41.6V~59.2V
- ▶ Max. Continuous Discharge Current: 100A
- ▶ Max. Continuous Charging Current: 100A
- ▶ Outline Dimensions: 440*140*820mm
